Team Rynkeby – A European Charity Project

Since 2002, Team Rynkeby has raised over **112 million euros** for children with critical illnesses and their families.

What started as a small Danish cycling team has grown into an international movement with **72 local teams** plus one international team across **eight countries**.

Each year, our participants, riders & service, embark on the Tour de Paris to mark the conclusion of an intense fundraising period. The funds come from **sponsorships, events, school runs, and the sale of various products**, with volunteers contributing to the cause.

The grand finale takes place in Paris, where all teams gather to celebrate their efforts and the shared mission of making a difference – and we are happy that you are joining the celebrations!
